

STEVEN MASHEGO
New Vaal Colliery

WATER IS OUR MOST PRECIOUS
NATURAL RESOURCE.

ESPECIALLY IN AREAS LIKE
THE MPUMALANGA PROVINCE
WHERE IT IS ALREADY IN
SHORT SUPPLY. SO RATHER
THAN LET A MINE BE A DRAIN
ON LOCAL RESOURCES,
WE HELPED BUILD A WATER
RECLAMATION PLANT
IN EMALAHLENI.

NOW 20 MILLION LITRES OF
UNDERGROUND WASTEWATER
FROM FIVE COAL MINES
ARE PURIFIED EVERY DAY
AND PIPED DIRECTLY TO
THE MUNICIPALITY'S
RESERVOIRS TO SERVE
THE LOCAL COMMUNITY.

IT IS ABOUT SUSTAINABLE
DEVELOPMENT. AND IT MAKES
FOR GOOD MINING - AND REALLY,
REALLY GOOD WATER.
