

NICK BANNERMAN
Anglo American, Australia

INTELLIGENT MINING MEANS
THINKING OUTSIDE THE MINE.

SO, WHEN PEOPLE LIVING AND
FARMING AROUND CALLIDE
MINE, QUEENSLAND, RAISED
CONCERNS ABOUT DUST
EMISSIONS FROM COAL TRAINS,
WE TOOK ACTION AND SOUGHT
A LOCAL AUSTRALIAN PARTNER
TO WORK WITH.

TOGETHER WE FOUND AN
INNOVATIVE WAY TO COAT THE
COAL WITH A THIN VENEER
THAT BINDS THE DUST IN.
IT MEANS LESS IMPACT ON THE
ENVIRONMENT AND A WIN FOR
THE LOCAL ECONOMY; SMART
MINING, YOU COULD CALL IT.
