

# GREENER BY BEING CLEANER

AT ANGLO AMERICAN WE BELIEVE THE BEST WAY TO LEAD IS BY EXAMPLE. SO RATHER THAN ALLOW METHANE TO VENT INTO THE ATMOSPHERE, WE HAVE PIONEERED A WAY TO NOT ONLY CAPTURE IT, BUT TO HARNESS IT, SO IT CAN HELP POWER THE NATIONAL GRID.

WE'VE PARTNERED WITH CLEAN ENERGY PROVIDER ENERGY DEVELOPMENTS LIMITED (EDL) AND BUILT TWO POWER STATIONS AT OUR CAPCOAL AND MORANBAH NORTH MINES IN QUEENSLAND. THE REDUCTION IN GREENHOUSE GASES IS EQUIVALENT TO TAKING AROUND 500,000 CARS OFF OUR ROADS.
