

# WHEN IT COMES TO SAFETY, EVERYONE PUTS THEIR THINKING CAPS ON

EMMA COOMBS  
Capcoal, Australia

AT ANGLO AMERICAN, SAFETY COMES FIRST, SECOND AND THIRD.

SO EVEN IF AN IDEA SEEMS EXPENSIVE, OR EVEN A BIT UNUSUAL; WE TAKE IT SERIOUSLY.

THAT'S WHY WHEN DR. DANIEL BONGERS CAME TO US WITH A CAP THAT COULD MONITOR THE FATIGUE LEVELS OF OUR ON-SITE TRUCK DRIVERS, WE WENT INTO PARTNERSHIP WITH HIM TO MAKE IT HAPPEN.

INTRODUCED AT OUR CAPCOAL MINE IN AUSTRALIA, THE SMARTCAP PICKED UP AN ANNUAL MINING INNOVATION AWARD IN 2009.

IT'S JUST ONE EXAMPLE OF HOW WE MANAGE FATIGUE - WHICH IS HELPING US MOVE TOWARDS OUR GOAL OF 'ZERO HARM' THROUGHOUT OUR BUSINESS. SOMETHING EVERYONE IS STRIVING FOR.
