

BoFAML 2014 GLOBAL METALS, MINING & STEEL CONFERENCE, 13 MAY 2014

Mark Cutifani, CEO

Real Mining. Real People. Real Difference.

CAUTIONARY STATEMENT

Disclaimer: This presentation has been prepared by Anglo American plc (“Anglo American”) and comprises the written materials/slides for a presentation concerning Anglo American. By attending this presentation and/or reviewing the slides you agree to be bound by the following conditions.

This presentation is for information purposes only and does not constitute an offer to sell or the solicitation of an offer to buy shares in Anglo American. Further, it does not constitute a recommendation by Anglo American or any other party to sell or buy shares in Anglo American or any other securities. All written or oral forward-looking statements attributable to Anglo American or persons acting on their behalf are qualified in their entirety by these cautionary statements.

Forward-Looking Statements

This presentation includes forward-looking statements. All statements other than statements of historical facts included in this presentation, including, without limitation, those regarding Anglo American's financial position, business and acquisition strategy, plans and objectives of management for future operations (including development plans and objectives relating to Anglo American's products, production forecasts and reserve and resource positions), are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Anglo American, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such forward-looking statements are based on numerous assumptions regarding Anglo American's present and future business strategies and the environment in which Anglo American will operate in the future. Important factors that could cause Anglo American's actual results, performance or achievements to differ materially from those in the forward-looking statements include, among others, levels of actual production during any period, levels of global demand and commodity market prices, mineral resource exploration and development capabilities, recovery rates and other operational capabilities, the availability of mining and processing equipment, the ability to produce and transport products profitably, the impact of foreign currency exchange rates on market prices and operating costs, the availability of sufficient credit, the effects of inflation, political uncertainty and economic conditions in relevant areas of the world, the actions of competitors, activities by governmental authorities such as changes in taxation or safety, health, environmental or other types of regulation in the countries where Anglo American operates, conflicts over land and resource ownership rights and such other risk factors identified in Anglo American's most recent Annual Report. Forward-looking statements should, therefore, be construed in light of such risk factors and undue reliance should not be placed on forward-looking statements. These forward-looking statements speak only as of the date of this presentation. Anglo American expressly disclaims any obligation or undertaking (except as required by applicable law, the City Code on Takeovers and Mergers (the “Takeover Code”), the UK Listing Rules, the Disclosure and Transparency Rules of the Financial Conduct Authority, the Listings Requirements of the securities exchange of the JSE Limited in South Africa, the SWX Swiss Exchange, the Botswana Stock Exchange and the Namibian Stock Exchange and any other applicable regulations) to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in Anglo American's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Nothing in this presentation should be interpreted to mean that future earnings per share of Anglo American will necessarily match or exceed its historical published earnings per share.

Certain statistical and other information about Anglo American included in this presentation is sourced from publicly available third party sources. As such it presents the views of those third parties, but may not necessarily correspond to the views held by Anglo American.

No Investment Advice

This presentation has been prepared without reference to your particular investment objectives, financial situation, taxation position and particular needs. It is important that you view this presentation in its entirety. If you are in any doubt in relation to these matters, you should consult your stockbroker, bank manager, solicitor, accountant, taxation adviser or other independent financial adviser (where applicable, as authorised under the Financial Services and Markets Act 2000 in the UK, or in South Africa, under the Financial Advisory and Intermediary Services Act 37 of 2002.).

THE ANGLO AMERICAN STORY

We have acknowledged where we have made mistakes...

Performance Disappointments

- Operations delivery has been unacceptable
- Project schedules and budgets have been missed
- Capital spending has inflated the Balance Sheet

Critical Issues

- Poor operations and project planning and execution
- Technical skills depleted...lack of resource and operations understanding
- Capital allocation driven by focus on growth

THE ANGLO AMERICAN STORY

We have acknowledged where we have made mistakes...

So...what have we done

- **Asset Review**.....completed to help understand critical risks and opportunities
- Identified short term opportunities...**Driving Value** to double EBIT by 2016
- **Restructure and recruit** to rebuild technical and business skills

Our Focus...strategic clarity

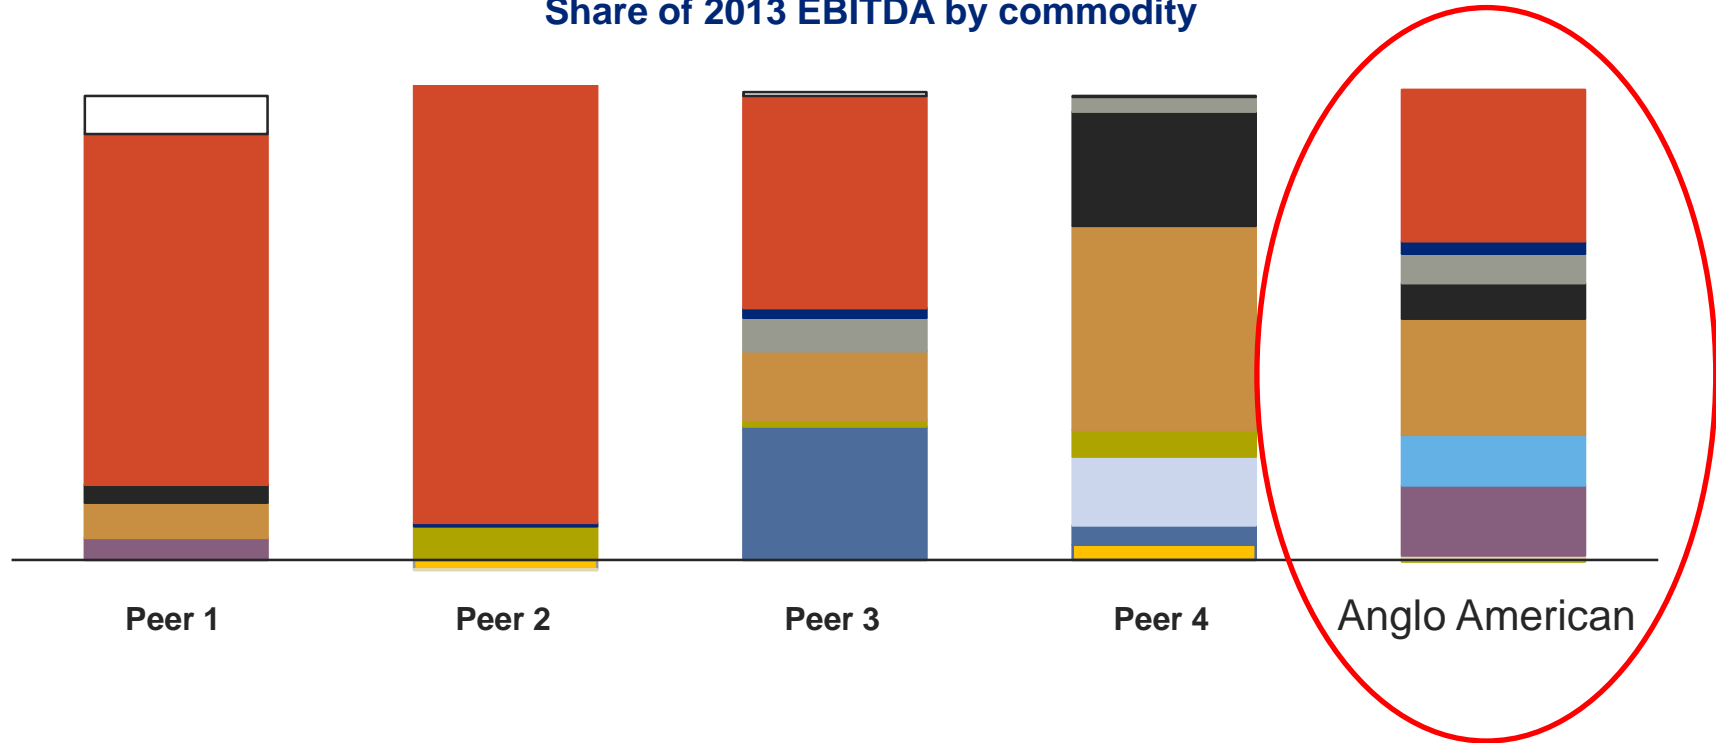

- **Drive top 20 assets** towards potential...equivalent to 70% of EBIT
 - **Resource** potential
 - **Mining strategy** to unlock value
 - **Planning and operations** deliver reliability and consistency
- **Focus best people** on critical value activities...recruitment and reassignment
- **Eliminate value destructive complexity**...31 assets only delivering 2% of EBIT

...and we are rebuilding the foundations for performance.

STRATEGIC CLARITY...

We are a “Major Diversified Mining Company” ...

Share of 2013 EBITDA by commodity

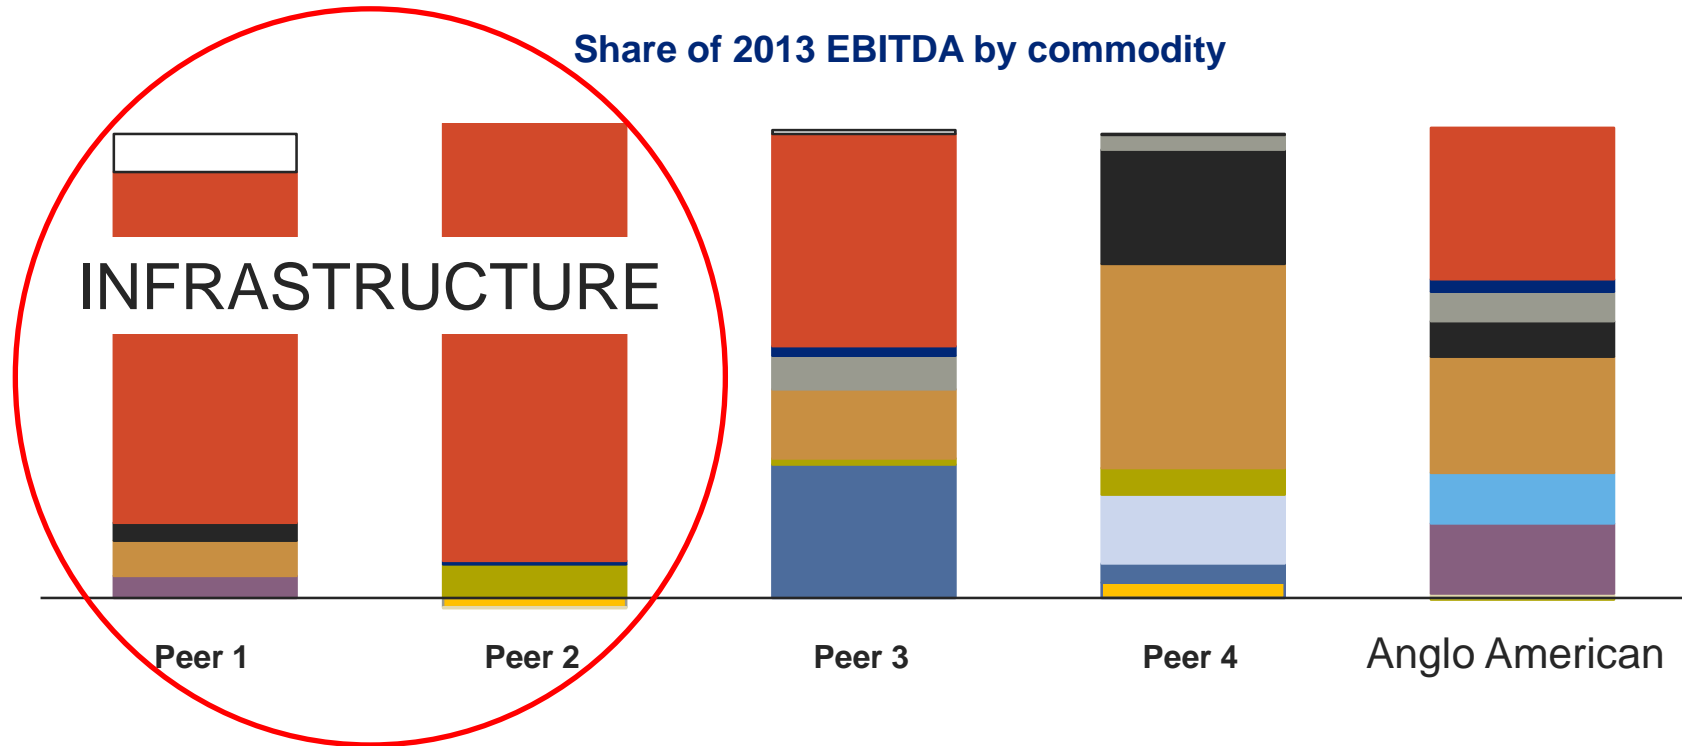

Aluminium Manganese Thermal Coal Nickel Platinum Petroleum Alloys
Iron ore Metallurgical Coal Copper Zinc Diamonds Fertilisers

STRATEGIC CLARITY...

We are a “Major Diversified Mining Company” ...

Share of 2013 EBITDA by commodity

Aluminium Manganese Thermal Coal Nickel Platinum Petroleum Alloys
Iron ore Metallurgical Coal Copper Zinc Diamonds Fertilisers

...with a differentiated downstream market mix.

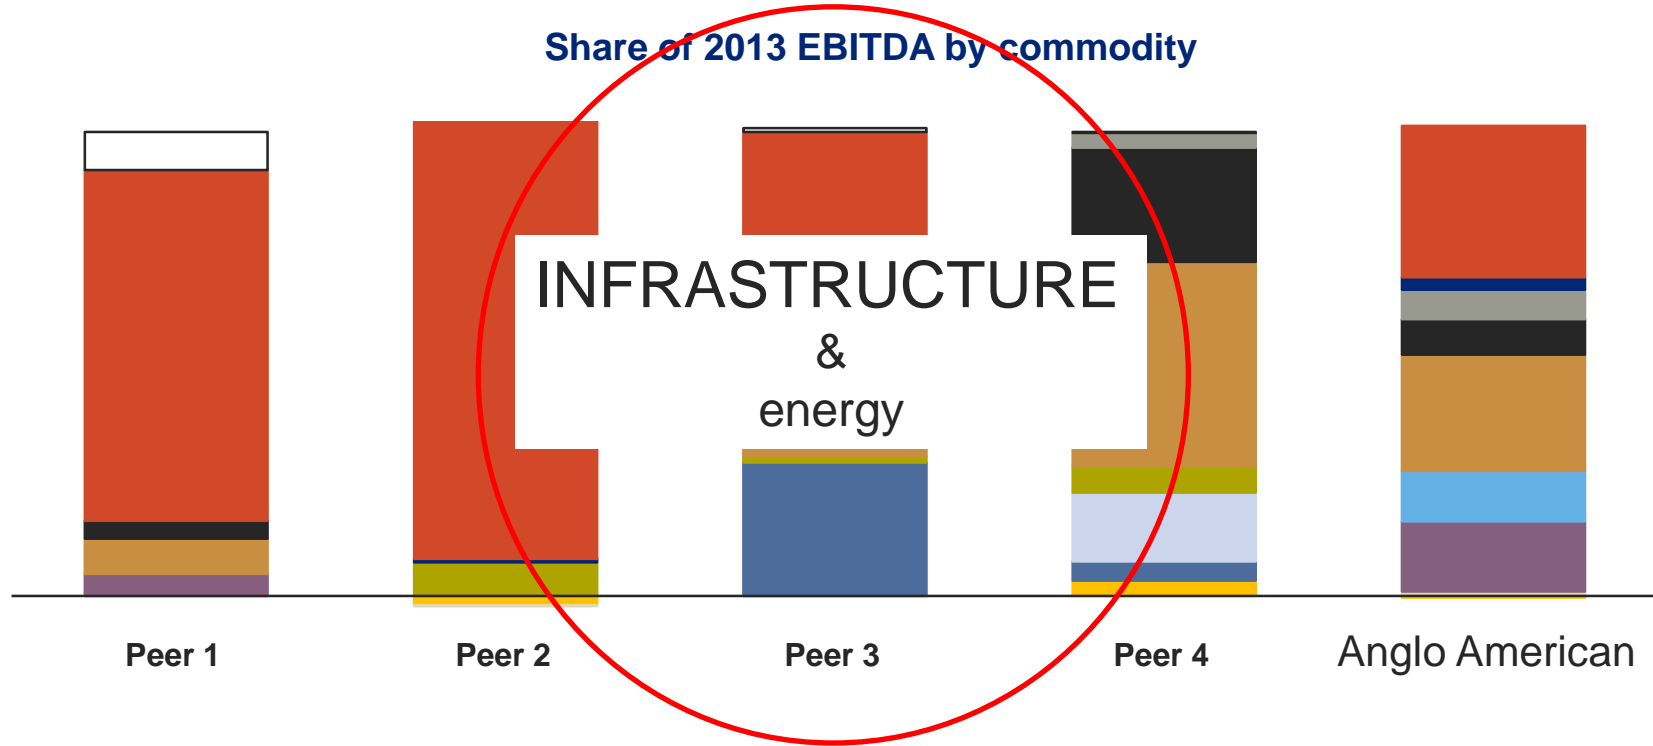

Note: All data is CY2013. Charts do not include EBITDA from marketing, logistics, agricultural other operations. Coal split for thermal coal and metallurgical coal not available for Peer 1 and Peer 2 so presented as a dashed line

Source: Company annual and interim reports

DOING WHAT WE SAID...

Predictability continues to improve across operations...

4 Quarters to Q1 2013

Q1 2014

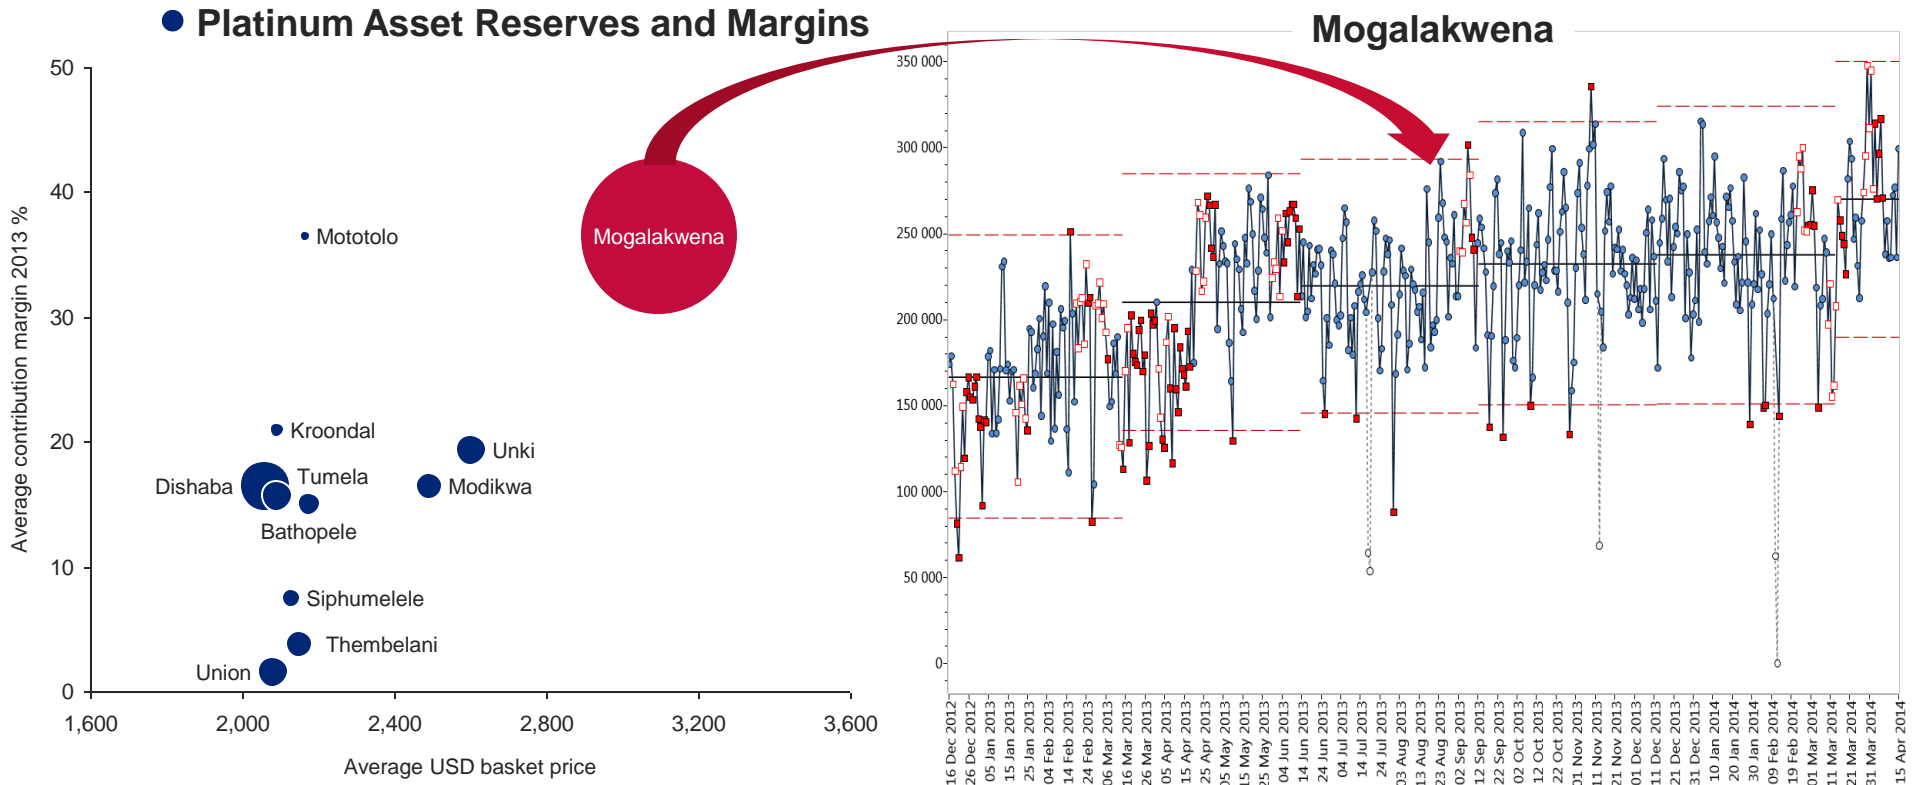

Category	Description
1	Negative cash risk • Budget hit for less than 75% of recent quarters for production & cost; No recovery plan or recovery plan not met for last 2 consecutive quarters; Cash flow < \$(50)m
2	Below budget, improvement uncertain • Budget hit for less than 75% of recent quarters for production & cost; No recovery plan or recovery plan not met for last 2 consecutive quarters; Cash flow > \$(50)m
3	Below budget, but improving • Budget hit for less than 75% of recent quarters for production & cost; Recovery plan in place and recovery plan met for last 2 consecutive quarters
4	On budget • Budget hit for at least 75% of recent quarters for production & cost; No formal documented business improvement (BI) program
5	On budget and ongoing BI • Budget hit for at least 75% of recent quarters for production & cost; Formal documented business improvement (BI) program in place

(1) Total of 52 assets at Q1 2014 versus 55 assets at Q1 2013. Excludes both Khomanani and Khuseleka (no longer in production) and Union North and Union South are now reported as Union mine

UNDERSTANDING OUR RESOURCES

We can see where we have resource opportunities...

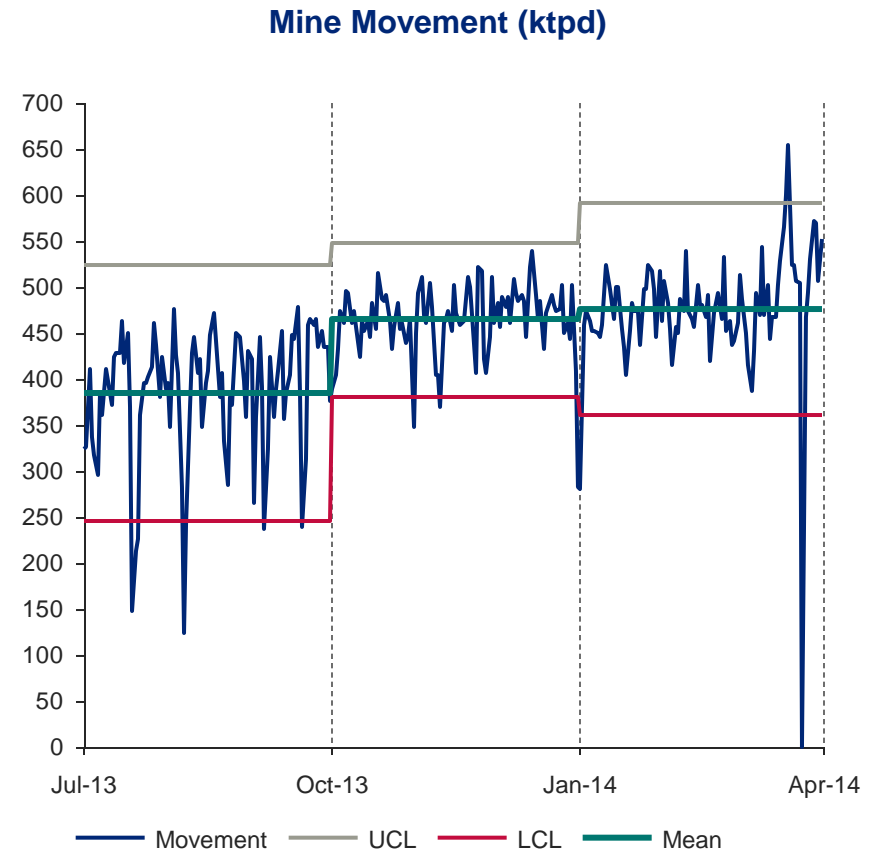

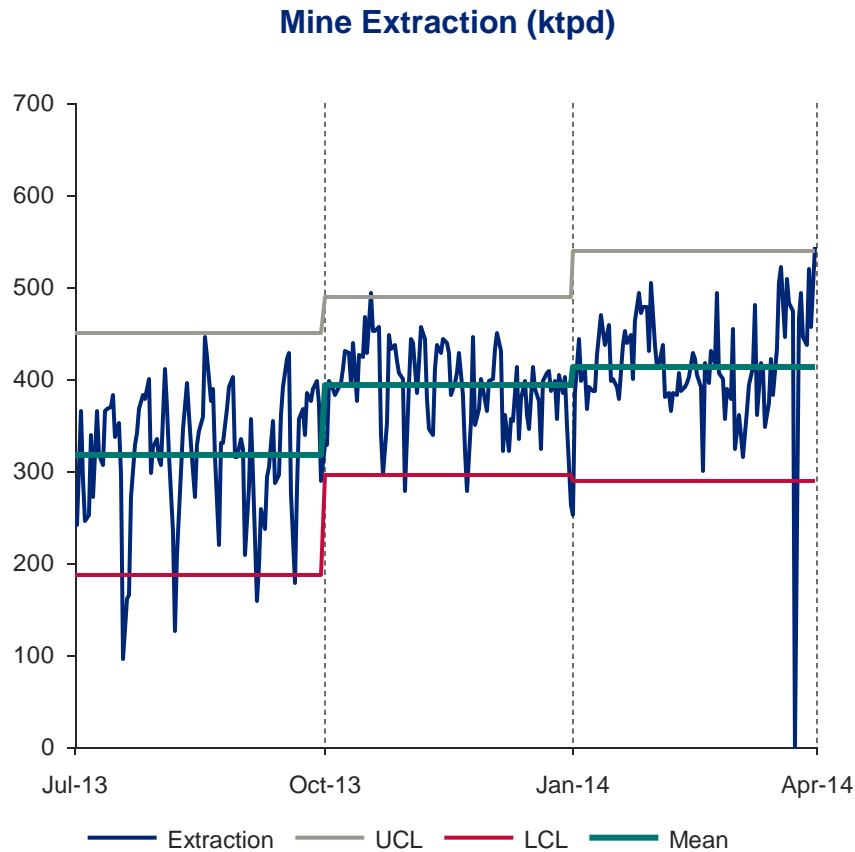

Amandelbult: Dishaba and Tumela
 Rustenburg: Bathopele, Thembelani, Siphumelele,

...and we are driving significant changes across the portfolio.

MINING STRATEGY DELIVERY

Los Bronces – mining strategy and plan delivery...

...supports continuing step improvements.

Note: UCL = Upper Control Limit, LCL = Lower Control Limit

OPERATING MODEL SUPPORTS IMPROVEMENT

The focus on a manufacturing approach to mining.....

Strong productivity increases 100% at Moranbah

Underground Australian productivity (ROM tonnes/FTE)

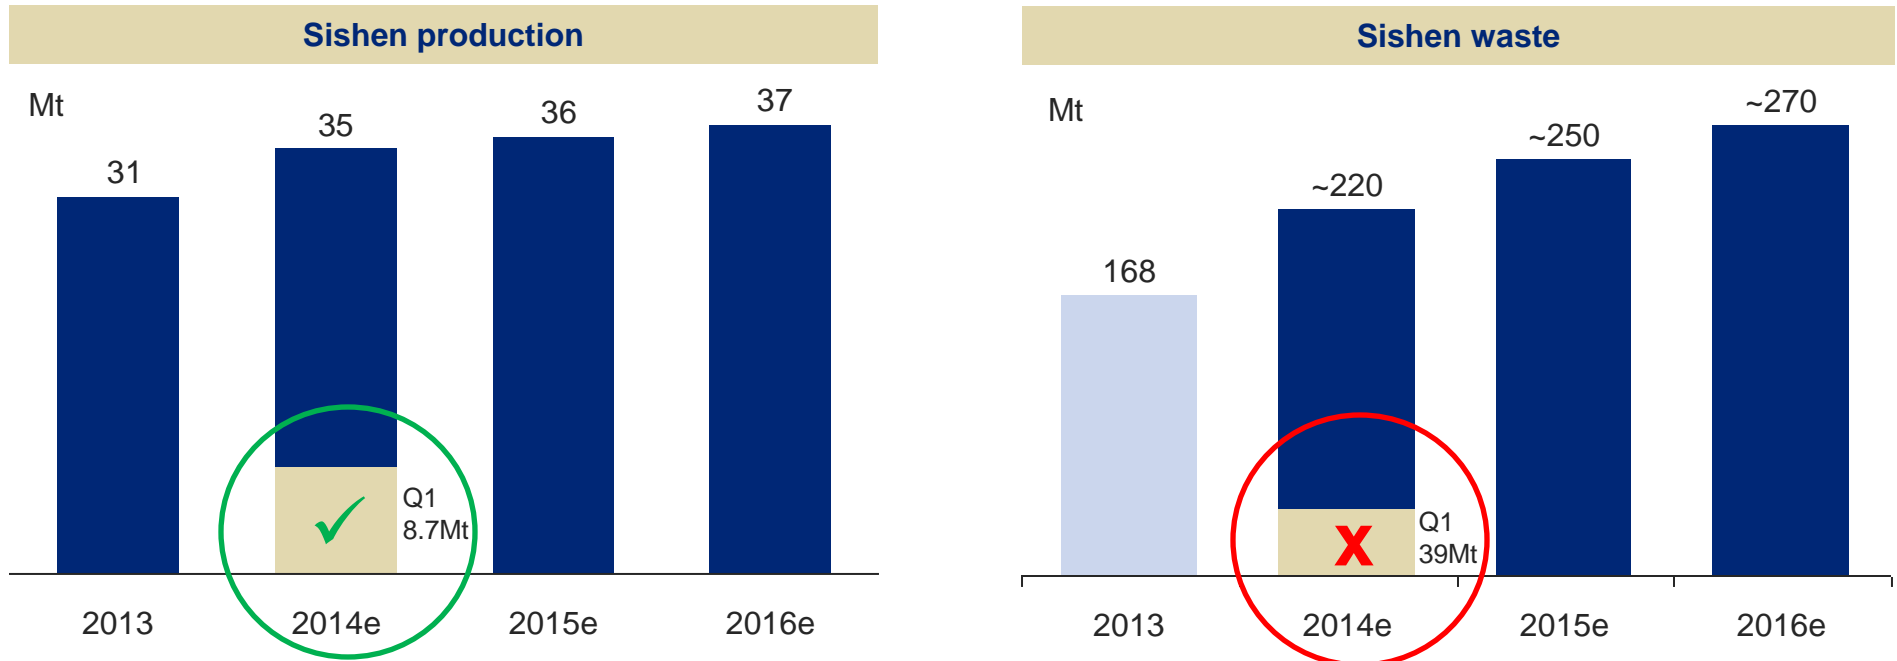

Productivity based on period-end FTE's

...reinforces the benefits of a new operating philosophy.

SISHEN...STILL LOTS TO DO

We have stabilised ore production...

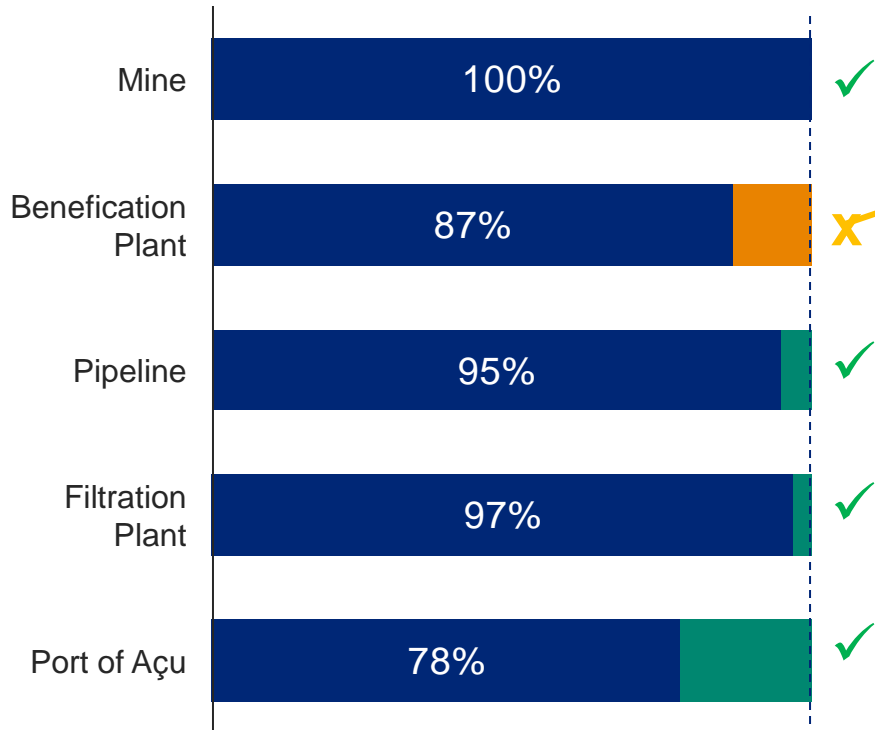

- New mine plan (pushback design) in place 2015
- Business Process Framework implementation (mining equipment and efficiencies) August 2014
- On schedule to achieve 2014 production target
- Some catch-up required on waste volumes following Q1 weather impact

...but we need to accelerate waste mining rates.

MINAS-RIO 88% COMPLETE....FOOS ON TRACK FOR 2014

Progress - 88% complete (at end of March)

Operational readiness

- Mine stripping complete – ore mining in process
- Beneficiation plant on schedule for Q4 commissioning – currently 30 days behind plan
- Other commissioning activities underway and progressing well e.g. pipeline hydro testing complete
- Pipeline pump and valve stations and filtration plant 100% complete and tested
- Stockpile of ore available for processing ~2Mt
- Production for 2015: 11 - 14Mt

2016: 24 - 26.5Mt

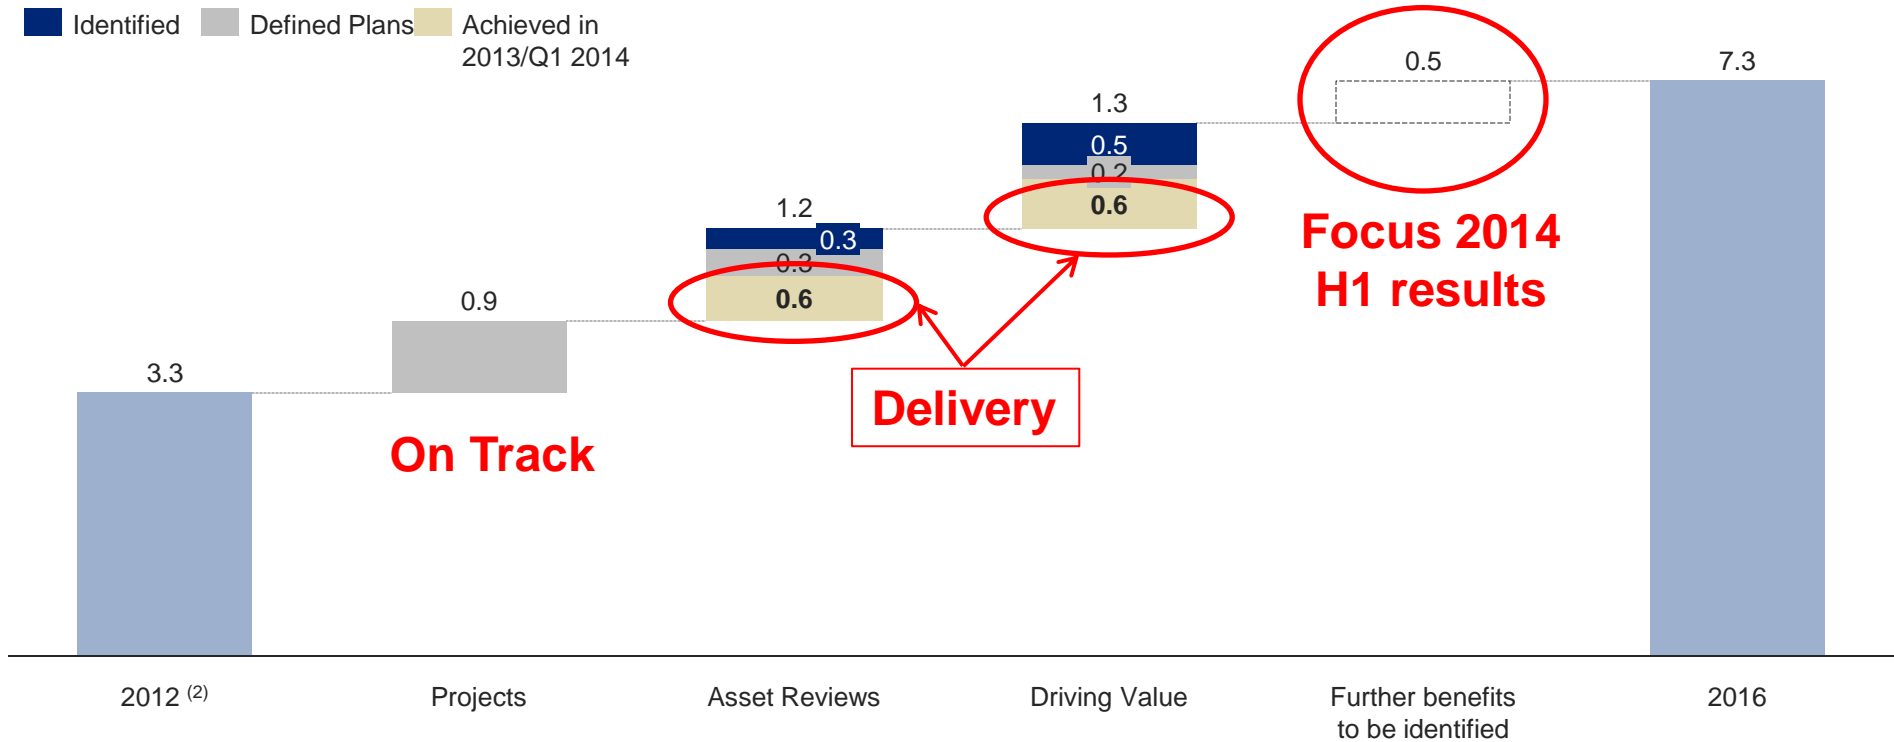

Licensing

FOCUS ON RETURNS - ATTRIBUTABLE ROCE

TARGET IS 15% ROCE BY END OF 2016...

Attributable ROCE⁽¹⁾ (%) and EBIT (\$bn) 2012 to 2016 Target (\$m) @ 30 June 2013 prices and FX

Attributable ROCE @ 2016 CE \$49bn @ flat prices					
7%	2%	2%	3%	1%	15%

...requires a doubling of EBIT.

(1) Attributable ROCE defined as operating profit attributable to AA plc shareholders divided by attributable average capital employed
 (2) ROCE based on commodity prices and exchange rates at 30 June 2013 and including structural changes to portfolio

BALANCE SHEET FLEXIBILITY

Delivering projects through '14 – '16...a different point in capex cycle...

- Increasing net debt levels in the near term reflect capex peak in 2014 supporting Minas-Rio and Grosvenor projects
- Current liquidity headroom (cash plus committed undrawn facilities) of ~\$18bn
- Commitment to support base dividend of 85 US cents per share per annum
- Stay in business capex ~\$3.0bn
Mine development ~\$1.0bn
- Asset sales will be opportunistic pending market conditions and value delivery.

Net debt consensus forecast (\$bn)¹

Debt maturity profile (bonds, \$bn)²

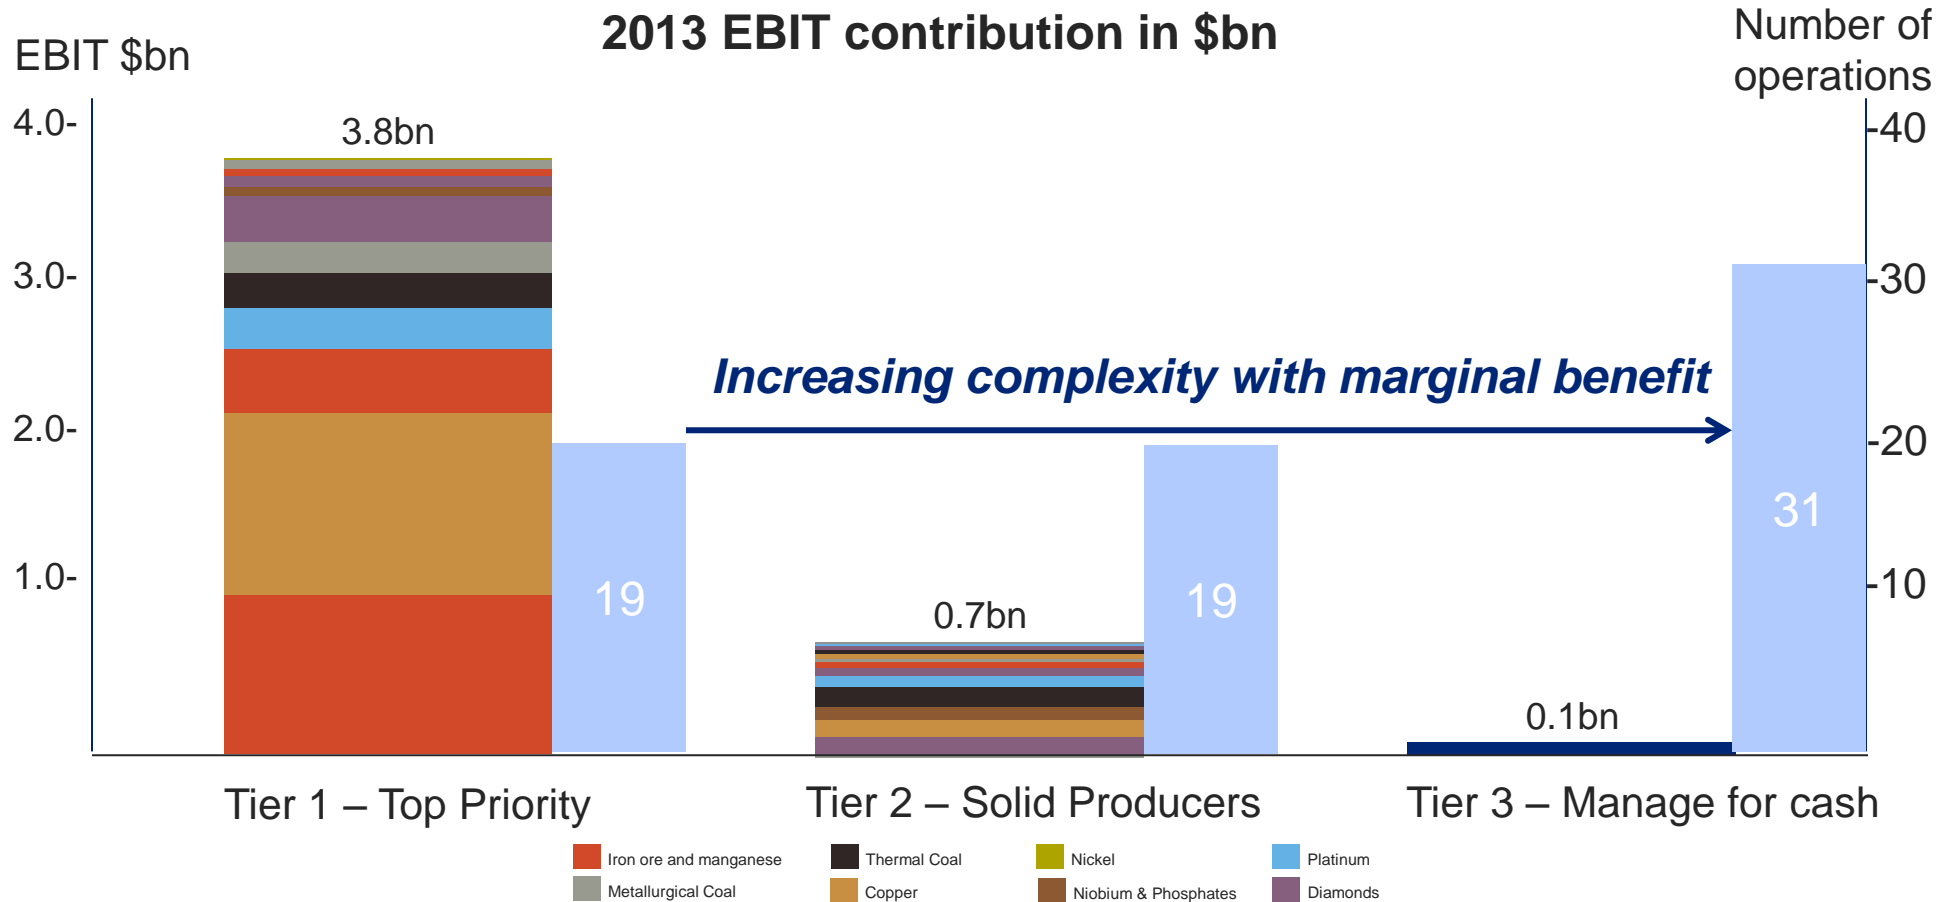

...potential to reduce liquidity and associated cost as net debt falls.

1) Based on consensus of analysts

2) YTD 2014 Anglo American has issued additional bonds totalling c.\$3.2bn in Euro, USD and ZAR markets. A \$1.25bn USD bond matured in April 2014

MANAGING THE PORTFOLIO

Focus on Tier 1 delivery and potential...Tier 2 consistency and potential...

...and Tier 3 discussions are strictly “cash or (don’t) carry”.

SUMMARY

Focus on ROCE reflects business delivery and capital discipline...

- 2014 is about rebuilding our performance foundations
 - Minas-Rio first ore on ship
 - Sishen production of 35Mt
 - Platinum portfolio and Rustenburg positioning to be defined
 - Deliver the numbers with focus on critical assets
- Key personnel are in place and execution is on track for major change points
- Positioning of our portfolio is unique and we are creating our own earnings momentum
- 2016 ROCE of 15% target is a milestone...not a destination...+20% ROCE is business target

“Return on Capital” leads to “Return of Capital”

APPENDIX

PRODUCTION OUTLOOK – 2014 COPPER / PLATINUM REVISED

COMMODITY	2012	2013	2014	2015	2016
Copper ⁽¹⁾	660kt	775kt	710 - 730kt 700-720Kt previously	c.700kt	c.700kt
Nickel ⁽²⁾	31kt	34kt	30-35kt	20-25kt	35-38k
Iron ore (Kumba) ⁽³⁾	43Mt	42Mt	44-46Mt	45-47Mt	46-48Mt
Iron ore (Minas-Rio) ⁽⁴⁾	-	-	N.M.	11-14Mt	24-26.5Mt
Metallurgical Coal	18Mt	19Mt	18-20Mt	19 – 21Mt	20-23Mt
Thermal Coal ⁽⁵⁾	29Mt	28Mt	29-30Mt	28-30Mt	29-31Mt
Platinum ⁽⁶⁾	2.3Moz	2.3Moz	2.1Moz 2.3-2.4Moz previously	2.2-2.4Moz	2.2-2.4Moz
Diamonds	28Mct	31Mct	29– 31Mct	-	-

(1) Copper Business Unit only

(2) Nickel Business Unit excluding Loma De Niquel in 2012

(3) Excluding Thabazimbi

(4) Minas-Rio 2016 guidance is dependent on the 18 to 24 month ramp-up schedule

(5) Export South Africa and Colombia

(6) Refined production

30 JUNE 2013 SPOT PRICES AND FX (ROCE CALCULATION)

Commodity	30 June 2013	Current (spot at 11 May 2014)
Iron Ore FOB Australia	\$108/t [CFR \$116]	\$95/t [CFR \$103]
Thermal FOB South Africa	\$74/t	\$76/t
Thermal FOB Australia	\$78/t	\$73/t
HCC FOB Australia	\$172/t	\$114/t
Copper	306c/lb	308/lb
Nickel	619/lb	902/lb
Platinum	\$1,317/oz	\$1,430/oz
Palladium	\$643/oz	\$802/oz
Rhodium	\$1,000/oz	\$1,030/oz
ZAR/USD	Rand 9.97	Rand 10.37
BRL/USD	Real 2.22	Real 2.22
AUD/USD	A\$ 1.09	A\$1.07
CLP/USD	Peso 479	Peso 555
