### Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## **Independent auditor's report to the members of Anglo American Capital plc**

We have audited the financial statements of Anglo American Capital plc for the year ended 31 December 2010 which comprise the Profit and Loss account, the Balance Sheet, and the related notes 1 to 16. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditor**

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements.

### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2010 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

### **Opinion on other matters prescribed by the Companies Act 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

## Independent auditor's report to the members of Anglo American Capital plc

### Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

## Notes to the accounts Year ended 31 December 2010

### 1. Accounting policies

The financial statements have been prepared in accordance with applicable United Kingdom law and Accounting Standards (UK GAAP). The financial information has been prepared under the historical cost convention, modified to include the revaluation of certain financial instruments. The particular accounting policies adopted have been applied consistently throughout the current and prior year.

#### Going concern

The financial statements have been prepared on a going concern basis. The Company's ability to continue as a going concern is assessed in conjunction with the Group, as its viability is dependent on the ability of other group companies to settle their intercompany balances with the Company. The Group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group will be able to operate within the level of its current facilities for the foreseeable future. The directors of the company are satisfied after appropriate consultation with the directors of Anglo American plc that the Group has adequate resources to continue in operational existence for foreseeable future.

#### Preference shares

Under FRS 25 "Financial Instruments: Presentation", where the terms of issuance require the issuer to redeem preference shares for a fixed or determinable amount at a fixed or determinable future date, or where the holder has the option of redemption, these shares are classified as liabilities and the dividends paid on these shares classified as a finance cost. When preference shares are non-redeemable, the appropriate classification is determined by the other rights that attach to them which are not at the discretion of the directors. The Company's preference shares entitle the holders to a fixed cumulative dividend of 3% per annum and these shares are, therefore, considered financial liabilities.

#### Foreign currency

Foreign currency transactions during the year have been translated and included in the financial statements at the rates of exchange prevailing at the time those transactions were executed. Monetary assets and liabilities denominated in foreign currencies have been translated at the rates of exchange prevailing at the balance sheet date. Profits and losses arising on foreign currency transactions and balances are recognised in the profit and loss account.

#### Taxation

Current tax, including UK Corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date. Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that they are regarded, as more likely than not, to be recovered. Deferred tax assets and liabilities are not discounted.

#### Derivative financial instruments and hedge accounting

In order to manage its exposure to foreign exchange and interest rate risks, the Company enters into foreign exchange forward, interest rate, and cross currency interest rate swap contracts. Net income or expense associated with interest rate swap agreements is recognised on an accruals basis over the life of the swap agreements as a component of interest.

## Notes to the accounts Year ended 31 December 2010

### 1. Accounting policies (continued)

All derivatives are held at fair value on the balance sheet within other financial assets (derivatives) or other financial liabilities (derivatives) and, are classified as current or non-current depending on the maturity of the derivative.

For an effective hedge of an exposure to changes in fair value, the hedged item is adjusted for changes in the fair value attributable to the risk being hedged with the corresponding entry in the profit and loss account. Gains or losses from revaluing the associated derivative are also recognised in the profit and loss account, resulting in an offset.

Where, during the life of the hedge relationship the hedge becomes ineffective, hedge accounting is discontinued and the future fair value changes on the hedge instrument are recorded in the profit and loss account but are no longer offset with the fair value changes of the underlying hedged item.

Changes in fair value of any derivative instruments that are not hedge accounted are recognised immediately in the profit and loss account and are classified within net finance costs.

#### Segmental Analysis

The company has not performed an analysis of results by geographical region or operating income as the company has no operating income, only interest income.

#### Bank borrowings

Interest bearing bank loans and overdrafts are recorded net of direct transaction costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accrual basis and charged to the profit and loss account using the effective interest method. They are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

#### Cash flows

As the Company is a wholly owned subsidiary of Anglo American plc ("parent undertaking"), the cash flows of the Company are included in the consolidated cash flow statement of its parent undertaking. Consequently the Company is exempt, under the provisions of Financial Reporting Standard 1 (Revised 1996) – "Cash flow statements", from publishing a separate cash flow statement.

#### Investments

Investments comprise short term, highly liquid investments that are readily convertible to a known amount of cash and that are subject to an insignificant risk of changes in value.

#### Reporting currency

As permitted by UK Company law, the Company reports in US dollars, the currency in which most of its business is conducted.

### 2. Information regarding directors and employees

The Company has no employees (2009: Nil). The directors received no remuneration in respect of their services to the Company (2009: \$Nil).

#### 6. Financial liabilities

In 2010, the Company issued a US\$ 750 million three year 2.15% bond and a US\$ 500 million ten year 4.45% bond. Additionally, the Company issued a US\$100 million two year floating rate note and US\$ 50 million two year floating rate note under the existing Euro Medium Term Note programme. All notes are guaranteed by Anglo American plc. Any bonds issued in currencies other than US\$ are hedged to US\$, and any fixed interest rates are swapped to result in floating interest rates being paid. Hedge accounting is undertaken for all outstanding US Dollar, Euro and Sterling bonds and the related interest rate swaps.

Fair value is determined by reference to quoted market prices for similar issues, where applicable; in all other cases, the directors consider that the carrying value is a good approximation to fair value.

In accordance with FRS 25 "Financial Instruments: Presentation" and FRS 26 "Financial Instruments: Recognition and Measurement", the borrowings are presented on an unhedged basis. The fair value of associated derivatives is recorded separately within 'Other financial assets' and 'Other financial liabilities' (see note 7).

In accordance with exemptions under FRS 29 'Financial Instruments: Disclosures', the Company has not presented the financial instruments disclosures required by the standard, as disclosures which comply with the standard are included in the Group's consolidated financial statements, hence exempts the Company from this disclosure.

In July 2010 the Company replaced a \$2.5 billion facility maturing in March 2012 with a \$3.5 billion facility maturing in July 2015. As at 31 December 2010 there was no outstanding amount drawn under this committed facility (2009: nil).

The Company was a borrower under a US\$2.25 billion revolving credit facility (cancelled in February 2011). As at 31 December 2010, US\$1.1 billion was drawn under this facility (2009: nil).

### 7. Other financial assets/liabilities

In accordance with FRS 25 and 26, the fair values of all derivatives and financial assets and liabilities designated as fair value through P&L are separately recorded on the balance sheet within 'Other financial assets' and 'Other financial liabilities'. Derivatives are classified as current or non-current depending on their maturity. Derivatives are only used to hedge fluctuations in foreign exchange rates and interest rates. They are not used for speculative purposes.

#### Foreign exchange risk

The Company uses currency swaps to limit the effects of movements in exchange rates on foreign currency denominated liabilities.

#### Interest rate risk

The Company uses interest rate swap contracts to manage its exposure to interest rate movements on a portion of its existing debt.

# Anglo American Capital plc

## Notes to the accounts Year ended 31 December 2010

### 7. Other financial assets/liabilities (continued)

#### Liquidity risk

The Company ensures that there are sufficient committed loan facilities in order to meet short term business requirements, after taking into account cash flows from operations and its holdings of cash and cash equivalents, as well as any distribution restrictions that exist.

#### Fair value hedges

The Company policy is to borrow funds at floating rates of interest. The Company uses interest rate swaps to manage its exposure to interest rate movements and the majority are designated as fair value hedges. The respective carrying values of the hedged debt are adjusted to reflect the fair value of the interest rate risk being hedged. Subsequent changes in the fair value of the hedged risk are offset against fair value changes in the interest rate swap and classified within financing costs in the profit and loss account.

#### Non-hedge transactions

Where the Company has chosen not to designate derivatives as hedges, fair value changes are recognised through the profit and loss account and are classified within finance costs.

The fair values of the open derivative positions as at 31 December 2010 are as follows:

US\$ '000	Asset	Liability

## Notes to the accounts Year ended 31 December 2010

The following methods were used to estimate the fair value of the financial assets and liabilities:

### **Short and long-term debt**

Fair value is determined by reference to quoted market prices for similar issues, where applicable, otherwise carrying value is used as an approximation to fair value.

### **Derivative instruments**

Fair value is determined by reference to market prices where available, otherwise pricing or valuation models are applied to current market information to estimate their value.

### 10. Preference shares

US\$'000	2010	2009
Authorised:		
50,000 3% cumulative preference shares of £1 each	79	79
Called up, allotted and fully paid:		
50,000 3% cumulative preference shares of £1 each	79	79

The 3% preference shares of £1 each entitle the holders to receive a cumulative preferential dividend at the rate of 3% per annum, on the paid up capital. On a return of capital on winding up, the holders of preference shares have the right to the repayment of a sum equal to the nominal capital and any premiums paid up or credited as paid up on the preference shares held by them, and accruals, if any, of the preferential dividend whether accrued or not up to the date of commencement of winding up.

### 11. Called-up share capital
